# My Equipment:

- Torch ( can be equipped )
- Compass ( if in Inventory the related hud section is enabled )
- Custom Telescope ( can be equipped )
- Batteries ( drag on a tool to recharge it )
- Magnesium Lamps ( drag on the Telescope to replace it )
- Grenades ( very useful with too robust doors! )
- Dynamite ( for an explosive final... )
- Detonator ( can be used only after dynamite has been placed )

Drag here Torch or Telescope  
( or use the Shortcuts )

Drag here an object to Remove it  
from the Inventory

Drag here an object to Use it  
( or use the Quick Use panel on the right )

05/11/1929

I divided my travel Diary in the following categories, so that I can find the needed information easily and quickly.

○ Notes { I can write down everything I understand... and also all the doubts I may have

○ Objectives { I have to do in order to all the steps to browse the next ones

○ Maps { In several areas tracing my path is quite important! At the end of this chapter, there are some notes about maps.

... or use the Shortcuts M. N. O  
(Maps. Notes. Objectives)
